LANGUAGES

- English (Fluent)
- Portuguese (Native)
- Spanish (Fluent)

PROFESSIONAL SUMMARY

A passionate and detail-oriented Full-Stack Developer with a proven ability to build and deploy modern, responsive, and AI-powered web applications. Specializes in the MERN stack and is driven by a passion for solving complex problems with clean, efficient code. Eager to contribute to a dynamic team and build impactful software solutions.

PROJECTS

Culinary Compass

An AI-powered travel guide that generates culinary recommendations, local etiquette tips, and beautiful, AI-created images of signature dishes for any city or country.

- **Tech Stack:** React, Vite, Tailwind CSS, Gemini API, Imagen 3 API
- **Live Demo:** claytoncrispim.github.io/culinary-compass
- **Source Code:** github.com/claytoncrispim/culinary-compass

Genie Weather

A sleek, dynamic weather application that uses generative AI to provide current forecasts, 5-day outlooks, and personalized advice on what to wear and what to do.

- **Tech Stack:** React, Vite, Tailwind CSS, Gemini API, Geolocation API
- **Live Demo:** claytoncrispim.github.io/genie-weather
- **Source Code:** github.com/claytoncrispim/genie-weather

Link-Folio

A full-stack link-in-bio application that allows users to create a personalized page with their social media links, projects, and a custom profile, built with a secure backend.

- **Tech Stack:** React, Node.js, Express, PostgreSQL, Tailwind CSS
- **Live Demo:** link-folio-nu.vercel.app
- **Source Code:** github.com/claytoncrispim/link-folio

Bill Calculator Pro

An intuitive and responsive single-page application to help users easily manage, track, and calculate their monthly bills in a visually organized way.

- **Tech Stack:** HTML5, CSS3, Bootstrap, JavaScript, localStorage
- **Live Demo:** claytoncrispim.github.io/bill-calculator-pro/
- **Source Code:** github.com/claytoncrispim/bill-calculator-pro

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Self-Directed Study)

Dublin, IE | Jun 2022 - Present

- Independently learning and mastering the MERN stack through rigorous self-study and hands-on, project-based development.
- Architecting, building, and deploying a portfolio of full-stack applications, demonstrating expertise in modern frontend frameworks, backend API development, and database integration.
- Utilizing Agile principles and version control (Git/GitHub) for effective project management and documentation.

Trust & Safety Analyst

Accenture, Dublin, IE | Jun 2022 - Jul 2025

- Specialize in addressing copyright infringement issues, which involves investigating flagged content, conducting thorough analyses, and processing content in line with established guidelines.
- Ensure accurate registration and maintain consistency in work, upholding intellectual property standards and contributing to the overall quality and security of online content.
- Proactively identify and take action against fraudulent ad content, including scams, phishing attempts, and misleading information, to protect users and maintain platform integrity.
- Review and analyze advertisements for a prominent jobs platform, meticulously verifying adherence to client policies regarding ad text, image, audio, video, and landing page content.
- Apply strong analytical skills to evaluate various forms of digital content and make accurate judgments in a fast-paced environment.

Part time Search Analyst

TELUS International, Dublin, IE | Oct 2021 - Jun 2022

- Analyzed and rated search results of a big music streaming platform, ensuring accuracy and relevance according to company guidelines.
- Demonstrated ability to follow detailed instructions and maintain high accuracy in evaluations to optimize user experience.

EDUCATION

BSc in Information Technology (Level 7)

CCT College Dublin, Dublin IE | Sep 2016 - May 2019

GPA: 1.0 / 2.0

- Core IT Fundamentals: Developed strong competencies in software development, programming, cybersecurity, networking, and database management.
- Practical Application: Gained hands-on experience in web development, mobile app creation, and data storage solutions.
- Technical Proficiency: Applied Object-Oriented Programming (OOP) and gained exposure to cloud concepts, ethical hacking, and network routing/switching.
- Problem-Solving: Cultivated analytical and problem-solving skills for effective IT solution implementation.
- Industry Aligned: Curriculum designed to meet current ICT sector demands, preparing for professional roles.

B.Des. with a degree in Digital Design

Centro Universitário FIEO UNIFIEO, Osasco, BR | Aug 2002 - Jun 2006

GPA: 2.0 / 2.0

- Comprehensive Digital Design: Proficient in Web Design, Graphic Design, Visual/Special Effects, Video Editing, and Photo Editing.
- Foundational Arts & Theory: Integrated studies in Visual Anthropology, Philosophy, Art History, Photography, and Drawing.
- Software Mastery: Expert in industry-standard design software (e.g., Adobe Creative Suite for the era).
- Multimedia Production: Created engaging multimedia content across various digital platforms.
- Project Management: Applied principles of project management for design conceptualization and execution.
